

Tricky Count Up – Answers & Ideas

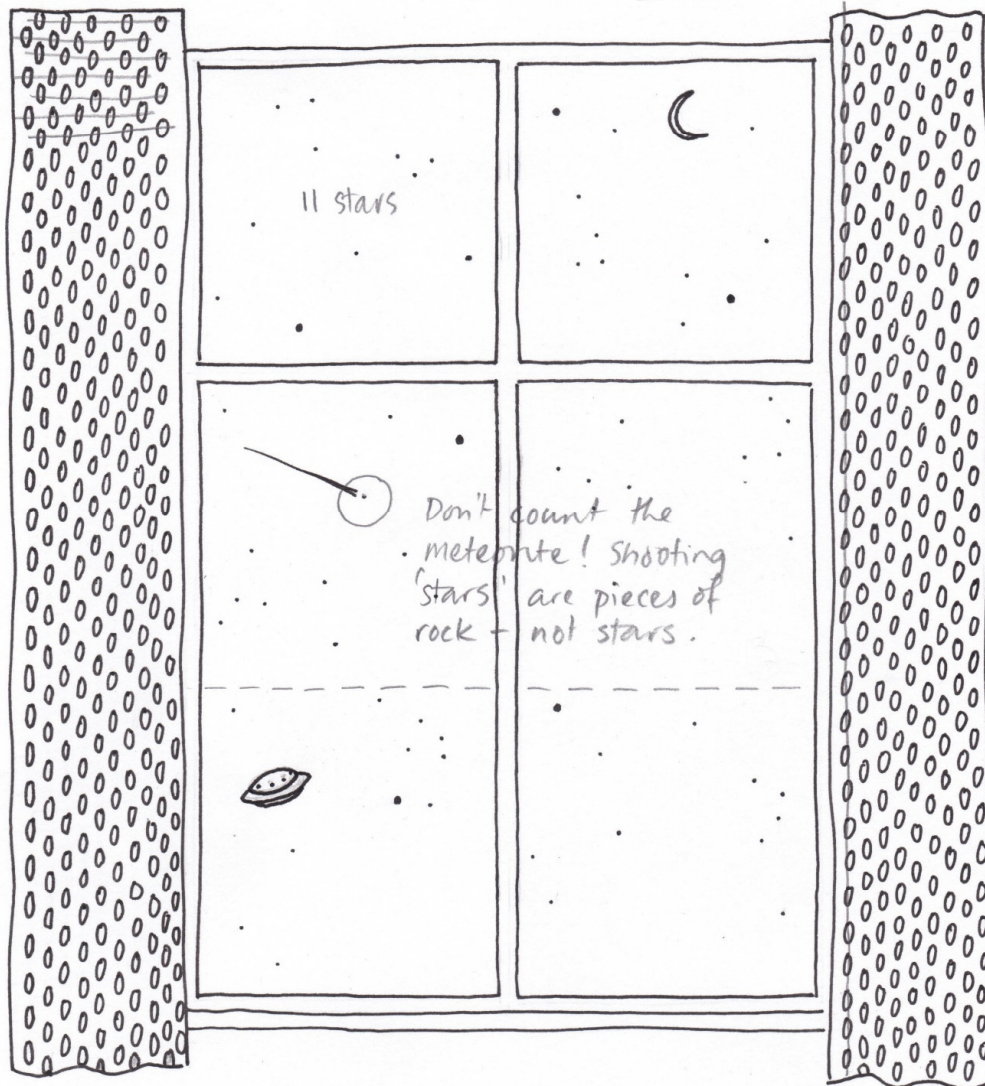

Crossing spots off in groups of 5 can make counting easier

Rows ↓ Spots each row

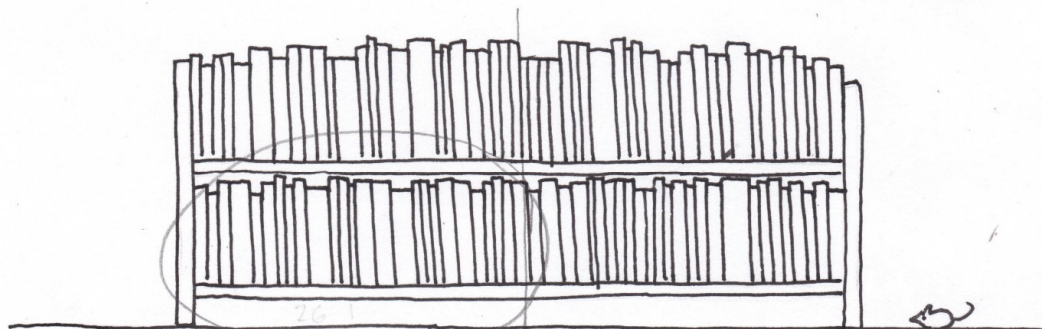

$55 \times 5 = 275$

Spots = $275 + 261 = 536$

These rows have the same number of spots in each one. $29 \times 9 = 261$

6 squares
× 11 stars
= 66 stars

26 books in half
a shelf

$26 \times 4 = 104$ books
